- (a) From time to time impending danger to the roads of the City of Dover due to unusual and extreme weather conditions requires the immediate operation and effectiveness of this Ordinance.
- (b) Whenever, in the judgment of the City of Dover City Council, the operation of vehicles upon roads over which the City of Dover has jurisdiction will cause damage in the road in question by reason of the climatic weather or the condition affecting the safe or efficient use of the road, then the City of Dover City Council shall have the authority to make and enforce regulations reducing the otherwise permissible size, weight or speed of vehicles operated on said roads for such periods as may be necessary for protection of the road or for public safety. The limitations shall be imposed depending upon the moisture, temperature, heaves and severity of frost or other conditions of the road.

- (a) The provisions and restrictions contained in this Ordinance shall have immediate force and effect upon a duly adopted Motion and Resolution of the City of Dover City Council at any regular or special meeting.
- (b) The Road Supervisor is hereby empowered to impose the restrictions contained in this Ordinance when, in his/her professional judgment, road or weather conditions are such that immediate damage to City roads or danger to the traveling public will occur if such restrictions are not

imposed. Such imposition of the restrictions in this Ordinance by the Road Supervisor shall be for a period not in excess of thirty (30) calendar days, or until the next regular meeting of the City of Dover City Council, whichever is shorter.
